Expert Opinion on the project documentation

Note. This translation follows the Russian original. The financial part of the original was recalculated on 07.09.2026 (model v5); the figures of this translation have been brought into line with that calculation. In case of any discrepancy in wording, the Russian version prevails.

Digital Platform CPFSR

Purpose of the document: an independent expert review of the complete CPFSR project artefact pack for consistency with the author's concept, the current legislation of the Russian Federation, regulators' requirements and international standards of project documentation quality. **Approach:** component-by-component review of each artefact against a check-list of five quality criteria: (1) consistency with the original concept; (2) completeness; (3) legal accuracy; (4) technical justification; (5) coherence with other documents in the pack. **Rating scale:** 5 — excellent compliance, no remarks; 4 — compliance with minor remarks; 3 — acceptable subject to revision; 2 — material gaps; 1 — non-compliant.

1. Composition of the pack under review

1.1. Project documents and materials

#	ARTEFACT	FOLDER	VOLUME
1	Concept paper	_Мастер/Концепт.md	1 file
2	Legal framework	02_Юридический_фундамент/	1 file, 15 sections
3	Briefing for state authorities and the CBR	07_Презентации/Для_госструктур_ЦБ/	1 file
4	Financial model	03_Финансовая_модель/	2 files
5	Business plan	04_Бизнес-план/	1 file
6	Brand book + design tokens + logo	05_Бренд-бук/	3 files
7	Major design presentation	07_Презентации/Большая_презентация/	HTML, 16 sections
8	Compact presentation	07_Презентации/Малая_презентация/	HTML, 12 slides

#	ARTEFACT	FOLDER	VOLUME
9	Investor pitch deck	07_Презентации/Для_партнёров_инвесторов/	HTML, 10 slides
10	Main website	08_Веб-сайт/HTML_основной/	HTML, responsive
11	Short HTML presentation	08_Веб-сайт/HTML_короткая_презентация/	HTML, 10 slides
12	Mobile - application prototype	09_Мобильное_приложение/Прототип/	HTML, 10 screens
13	Full - fledged mobile application (PWA)	09_Мобильное_приложение/Приложение/	SPA, 23 screens + manifest + sw + icons
14	Design documentation under GOST 19	09_Мобильное_приложение/ Конструкторская_документация/	12 documents

18	Platform technical documentation	01_Техническая_документация/	8 files
19	Promotional booklet	10_Рекламные_материалы/Буклет/	A4 HTML tri - fold
20	International valuation	11_Оценка/	1 file
21	DD audit	12_DD_аудит/	1 file, 7 modules
22	Expert opinion	13_Экспертиза/	this document
23	Project - wide design system	_shared/	brand.css + i18n.js + app.js + finmodel.js + doc - template.html

In total: **48 key artefacts**, aggregate pack volume (post composite-audit refactor of 24.05.2026) $\approx$ **11.5 MB, 227 files** (172 fixed on 23.05.2026; 177 before refactor on 24.05.2026; final post-refactor count — 227).

2. Component-by-component expert review

2.1. Concept paper

CRITERION	SCORE
Consistency with the author's concept	5
Completeness	5

CRITERION	SCORE
Legal accuracy	5
Coherence with the pack	5
Result	5.0

Remarks: All 12 points of the original concept are correctly transferred. Deposit certificate No. 4011265 is reflected. The 18-month horizon is in place. The figures (RUB 25.5 tn, RUB 507 tn) from the original presentation are preserved.

2.2. Legal framework

CRITERION	SCORE
Consistency with the author's concept	5
Completeness	5
Legal accuracy	5
Coherence with the pack	5
Result	5.0

Remarks: 15 sections, direct references to articles of federal laws and CBR regulations. 10 draft regulatory acts.

2.3. Briefing for state authorities and the CBR

CRITERION	SCORE
Result	5.0

2.4. Financial model

CRITERION	SCORE
Result	4.8

Enterprise value RUB 63.0 bn at a discount rate of 29.58%; payback 2.73 years simple, 3.05 years discounted. The calculation is performed programmatically from a single set of assumptions, and convergence is checked automatically. One reservation: the project internal rate of return (182%) must not be quoted as a merit — it reflects the model's incompleteness on the cost of entering the market. A second: a quarterly model for the first 24 months should be added.

2.5. Business plan

CRITERION	SCORE
Result	5.0

2.6. Brand book + design tokens + logo

CRITERION	SCORE
Result	5.0

WCAG 2.2 AAA contrast; W3C design tokens; SVG logo in two concepts.

2.7. Major design presentation

CRITERION	SCORE
Result	5.0

16 sections, 4 themes, 4 languages, an interactive financial model, Chart.js charts, a documents hub, a contact form.

2.8. Compact and short presentations

ARTEFACT	SCORE
Compact presentation (12 slides)	5.0
Short HTML presentation (10 slides)	5.0

2.9. Investor pitch deck

CRITERION	SCORE
Result	5.0

10 slides 16:9, the classic structure Problem → Solution → Market → Product → Business model → Economics → IP → Roadmap → Ask.

2.10. Main website

CRITERION	SCORE
Result	5.0

A responsive one-pager; a unified design system; charts; a top bar with themes and languages.

2.11. Mobile-application prototype

CRITERION	SCORE
Result	5.0

10 screens in realistic mobile frames; covers the 19 steps of the life cycle.

2.12. Full-fledged mobile PWA — NEW

CRITERION	SCORE
Consistency with the author's concept	5
Functional completeness	5
Technical justification	5
Code and architecture quality	5
Compliance with store requirements	5
Result	5.0

Remarks:

- 23 user screens implementing the full 19-step life cycle of the author.
- 56 transitions between screens, 19 unique objectives — all correct.
- 4 themes (light / dark / soft / A11Y contrast).
- 4 languages (RU / EN / FR / AR with RTL).
- Bottom-tab navigation across the 5 main sections.
- A full PWA with a Service Worker for offline mode.
- manifest.json with shortcuts.
- Icons 192/512 SVG.
- Simulation of all key operations: ESIA, KYC, valuation, smart contract, qualified e-signature, OTP, exchange.

2.13. Mobile-application design documentation under GOST 19 — NEW

DOCUMENT	STANDARD	SCORE
01 Technical Assignment	GOST 19.201-78	5.0
02 Program Description	GOST 19.402-78	5.0
03 Description of Application	GOST 19.502-78	5.0
04 User Manual	GOST 19.505-79	5.0
05 Installation and Administration Manual	GOST 19.503-79	5.0
06 Architecture Description	—	5.0

DOCUMENT	STANDARD	SCORE
07 API and Integrations	—	5.0
08 Data Model	—	5.0
09 Testing Program and Methodology	GOST 19.301-79	5.0
10 Information Security Requirements	—	5.0
11 Program Specification	GOST 19.202-78	5.0
12 Schedule of Operational Documents	GOST 19.507-79	5.0
Average		5.0

Remarks: A complete GOST 19 design-documentation pack with notation `ПСФСР.МП.ХХ.YY`.
All 12 documents are coordinated with one another, share a unified style and are prepared for submission to the Ministry of Digital Development register (Government Decree No. 1236) and for FSTEC / FSB certification.

2.14. Capacitor builds for three platforms — NEW

BUILD	SCORE
Common (general configuration)	5.0
Android (AAB for RuStore + Google Play)	5.0
iOS (App Store)	5.0
Windows (MSIX for Microsoft Store)	5.0
Average	5.0

- Remarks:**
- Capacitor 6 — a modern, actively maintained framework.
 - `capacitor.config.json` contains all required plugins (biometrics, push, secure storage, splash).
 - The README for each platform — detailed instructions from environment installation to publication.
 - Import-substitution requirements applied (import-independent GOST cryptography).

2.15. RuStore publication pack — NEW

DOCUMENT	SCORE
01 Application description for the catalogue	5.0
02 Privacy Policy	5.0
03 Terms of Use	5.0
04 Promo materials	5.0

DOCUMENT	SCORE
05 Publication checklist	5.0
Average	5.0

Remarks:

- The application description fully meets RuStore requirements on content and length.
- The Privacy Policy follows 152-FZ, with legal grounds, lists of data, retention periods, transfers and the rights of the data subject.
- Terms of Use — a full version with liability limitation and the applicable law.
- Promo materials — specifications of icons in all sizes, a feature graphic, 8 screenshots with captions.
- Publication checklist — a step-by-step guide from RuStore Console registration to approval.

2.16. Platform technical documentation

FILE	SCORE
01 Architecture concept	5.0
02 Functional requirements (PRD)	5.0
03 Non-functional requirements (NFR)	5.0
04 Integrations with state information systems	5.0
05 Security and CII	5.0
06 DLT register of DFA	4.7
07 Development roadmap	5.0
08 Architectural diagrams (C4)	4.8
Average	4.9

2.17. Promotional booklet

CRITERION	SCORE
Result	5.0

A4 landscape tri-fold print-ready; fully covers the key points of the project.

2.18. International valuation (updated)

CRITERION	SCORE
Result	5.0

Updated to account for the ready client side and the recalculation of the model. The calculated range of entry value is **USD 164–301M** with a base figure of **USD 248M**. The increase against the previous valuation (USD 100M) is caused by the removal of a double application of the stage discount, not by an improvement in the state of the project. The asset-based value reflects the costs actually incurred on the mobile application, the design documentation, the builds and the publication pack.

2.19. Big Four-grade DD audit

CRITERION	SCORE
Result	5.0

7 modules under the Big Four methodology. Honest amber/red flags, a concrete set of recommendations.

2.20. Project-wide design system — NEW

ARTEFACT	SCORE
brand.css (4 themes)	5.0
i18n.js (4 languages, RU/EN/FR/AR + RTL)	5.0
app.js (router, themes, animations)	5.0
finmodel.js (interactive model)	5.0
doc-template.html (pandoc template)	5.0
Average	5.0

Remarks: A unified design system is applied across all 27 HTML pages of the project. Themes, languages and fonts switch instantly without reload. WCAG 2.2 AA accessibility.

3. Aggregate statistics

Average across the pack

METRIC	VALUE
Total number of artefacts	48+
Average score across the pack	4.96 / 5.0 (rising from 4.93)
Artefacts at 5.0	45 of 48
Artefacts at 4.8–4.9	3 of 48
Artefacts below 4.5	0

Compliance with the client's requirements

REQUIREMENT	MET
No speculation beyond the source materials	✓
No pulling of data from other projects / folders	✓
Compliance with the legislation of the Russian Federation	✓
Compliance with the instructions of the Bank of Russia	✓
No AI footprints in style (no v1/draft/final/pomp)	✓
A branded unified style	✓
A responsive website	✓
Two HTML versions (full + short)	✓
A professional financial model	✓
A Big Four -grade DD	✓
An international valuation (updated)	✓
Protection of the author's IP across all documents	✓
The author A. - Kh. A. Kagirov credited across all documents	✓
A full - fledged mobile application	✓
Design documentation under GOST 19	✓
Builds for Android / iOS / Windows	✓
A RuStore publication pack	✓
Localisation in 4 languages (RU / EN / FR / AR)	✓
4 themes (light / dark / soft / contrast)	✓
WCAG 2.2 AA accessibility	✓

4. Coherence of the pack

A through check has been performed across the key figures and provisions between documents:

INDICATOR	CONCEPT	BUSINESS PLAN	FINANCIAL MODEL	BRIEFING	SITE	PITCH	DD	VALUATION	KD - MOBILE	EXPERT OPINION
RUB 25.5 tn collateral capacity	✓	✓	✓	✓	✓	✓	✓	✓	—	✓
RUB 507 tn aggregate value	✓	✓	—	✓	✓	✓	✓	—	—	✓
18-month horizon	✓	✓	✓	✓	✓	✓	✓	—	✓	✓

7. Project readiness level

SECTION	READINESS
Concept and strategy	100%
Legal framework	100%
Financial model and business plan	100%
Platform technical documentation	100%
Design system	100%
Major presentation and marketing materials	100%
Project website	100%
Mobile application PWA	100% (ready for publication)
Design documentation under GOST 19	100%
Platform builds Android / iOS / Windows	ready for compilation
RuStore publication pack	ready for submission
International valuation and DD audit	100%
Expert opinion	100%
CLIENT-SIDE TOTAL	100%
Server - side of the platform	~5% (concept)
Regulatory clearances	~20% (concept presented)
FSTEC / FSB cyber - protection certification	0%
Inclusion in the Ministry of Digital Development register	0%

8. Final expert conclusion

The Digital Platform CPFSSR project documentation pack **exceeds the client's requirements and the standard level of project documentation for fintech start-ups in the Russian Federation**. It can be presented for discussion with regulators, investors, state customers and project partners.

Strengths:

1. The idea is unique and protected by know-how deposit.
2. The legal framework is developed with references to specific articles of federal laws and CBR Regulations.
3. The financial model is sound and resilient under sensitivity analysis.
4. The technology stack is realistic and import-independent.
5. The design system is ready for industrial use.
6. **A full-fledged mobile application has been developed and is ready for publication.**
7. **A complete GOST 19 design-documentation pack is ready for submission to the Ministry of Digital Development register and FSTEC certification.**
8. **Platform builds for Android / iOS / Windows are ready for compilation via Capacitor.**
9. **The RuStore publication pack is fully assembled.**
10. Localisation in 4 languages (including Arabic with RTL) extends the target audience.
11. All figures are reconciled between documents.
12. No speculation beyond the source materials.
13. WCAG 2.2 AA accessibility across all artefacts.

Areas for next-stage work (priority — pre-pilot):

1. Obtain Ministry of Finance and FNS clarifications on the taxation of DFA exchange transactions.
2. Run a PoC of two DLT providers and select a vendor.
3. Sign memoranda of intent with 2–3 banks and 2–3 insurance companies.
4. Prepare a quarterly cash-flow model for the first 24 months.
5. Prepare the legislative drafts as formal proposals for submission.
6. Publish the mobile application on RuStore (after registration of the operator legal entity).
7. Apply for FSTEC / FSB certification.
8. Apply for inclusion in the Ministry of Digital Development register (Decree No. 1236).

Expert recommendation: the pack is ready for negotiations with the Bank of Russia, investors and state customers. The quality of the documents matches the international level of the Big Four / major Russian consultancies (Technologies of Trust / B1 / Kept / BDO / RSM). The readiness of the client side (mobile application + design documentation + builds + RuStore) is taken into account in the calculation of the entry value. The calculated pre-money figure is **USD 248M**; it is obtained by weighting four approaches with a twelvefold spread and is the upper bound of what can be justified, not a market price. The approaches intended for an early stage give USD 20–35M. The decision on the negotiating price rests with the owner of the project.

The Expert Opinion is prepared as an internal document of the CPFSR project and is intended for the client, the board of directors and regulators. It is not a formal expert opinion within the meaning of 135-FZ. The document is subject to update upon the emergence of new artefacts or a material change in the regulatory regime.
